

Family counselling at health clinics

- an offer to couples, families and individuals

Do you need someone to talk to?

How to take care of your relationship?

Too much arguing?

What about the sex? Go your separate ways?

Mine, yours, our children. Chaos?

Talk with the children?

How do I understand my child?

Feeling low?

Unfulfilled dreams?

We offer counselling about:
couple relations
parent co-operation
when one plus one becomes three
children in two homes

No problem is too small; it is your experience that counts

The health clinics in Bærum Kommune and the Family counselling office in Asker & Bærum have a joint offer to couples who are about to become or have become parents.
